WORK EXPERIENCE

Frontend Developer • PT Activa Digital Indonesia

Dec 2022 - Nov 2023 | Jakarta, Indonesia (Remote)

- Utilized ElectronJS and NextJS to create a desktop and web application for storing and monitoring vehicle archive data with OCR document scanning, resulting in an efficient integrated data storage system.
- Improve desktop app flow features for storing vehicle documents, resulting in user increasing their productivity up to 8X faster.
- Utilized React Native to create a mobile application for monitoring police tracking locations while on national operations, resulting in enhanced real-time visibility, streamlined coordination, and improved operational efficiency

Software Developer • PT. Bixbox Teknologi Perkasa

Nov 2021 - Dec 2022 | Yogyakarta, Indonesia

- Utilized React Native to create cross-platform Android and iOS apps for electronic vehicle products, resulting in enhancing user experience while using vehicles for customers.
- Implemented unit tests for components, reducers, and utilities using Jest testing framework to ensure code quality and maintainability.
- Worked with cross-functional teams to ensure seamless integration of the frontend with the backend and actively contributed to code review to maintain application performance and code quality.

EDUCATION

Gadjah Mada University
Jul 2018 - Aug 2021
